27101732	AR81 Single scale Bearing Repeater NMEA. To be mounted in BB holder, MB Holder or BH stand. IMO A424. Wheelmark approved for GC80/ 85 gyro systems

► AR81 Bearing Repeater

RGC50 Compact Gyrocompass

The small, compact "all in one" RGC50 Gyrocompass is designed for smaller vessels and non-IMO applications.

The RGC50 is a compact gyrocompass, designed to enhance the navigation capabilities on small commercial, fishing vessels, and large pleasure yachts. A gyrocompass eliminates the inconvenience and limitations of magnetic compasses, and provides a variety of electrical outputs to supply accurate and consistent heading information to other navigation equipment. The capabilities and precision of the RGC50 will provide exceptional heading information to the navigation equipment installed on your vessel.

Part Number	Description
27102185	RGC50 Gyrocompass for small vessels. Built in timer.
000-10124-001	RGC50 Pack (RGC50, GI51)
